

Fall 2004 Technology Specials

Microsoft Small Business Server 2003 Special

A Great Entry-Level System Setup For Any Small Business!

Perfect for the small business owner that wants to utilize the same technology that larger businesses have but doesn't want to spend the extra money. Microsoft's Small Business Server (SBS) 2003 comes to the rescue with a specially priced software bundle of Windows Server 2003, Exchange 2003 and the SharePoint 2003 Portal Server, now at a low attractive price!

Along with the Microsoft SBS software, nFusion has created a fantastic hardware and installation package that compliments the SBS 2003 server with a reliable system with redundant hard drives and a tape backup system to protect your valuable business data.
